AWARDING BODY

FOCUS AWARDS 

Course Description

Our Level 3 Award in Assessing Competence in the Work Environment is a popular option for those aspiring to become qualified assessors. Formerly recognized as the AI Assessor course under the Regulated Qualifications Framework (RQF), it has now been superseded by the TAQA (Training Assessment and Quality Assurance) suite of qualifications.

This NVQ assessor course, accredited by UK OFQUAL, encompasses assessment techniques applicable to diverse industry sectors such as nursing, culinary arts, and hospitality. Our online course provides comprehensive assessment expertise regardless of the learner's background, enabling proficiency in assessment methodologies across different vocations.

Course Structure

Unit 1: Understanding the principles and practices of assessment

Unit 2: Assess occupational competence in the work environment

Assessment

The assignment entails both a written component and a practical demonstration of assessment skills.

Participant must assess a minimum of two learners who are enrolled in a competency-based course. If individuals do not have access to learners for the practical component due to lack of placement, they can take advantage of our Trainee Assessor Positioning program. Through this program, we provide support for completing practical assessments for learners.

Duration

The course provides modules that can be completed at one's own pace, spanning anywhere from a week to four months. Nonetheless, access to the course expires after a year, and there is a re-enrollment fee.
